Introduction.....	3
Table 1.—Combined textiles—comparative summary, by industries: 1850 to 1905.....	4
Number of establishments.....	5
Capital.....	5
Table 2.—Capital, by industries: 1840 to 1905.....	5
Wage-earners and wages.....	6
Table 3.—Average number of wage-earners and wages, by industries: 1905 and 1900.....	6
Table 4.—Average number of wage-earners, and per cent each class is of total, by industries: 1880 to 1905.....	7
Materials used.....	7
Table 5.—Consumption of raw textile fibers: 1840 to 1905.....	7
Table 6.—Raw fibers consumed, by industries: 1905.....	8
Table 7.—Yarns consumed, by industries: 1905.....	8
Products.....	8
Woven goods: 1905.....	9
Table 8.—Value of products, by industries: 1810 to 1905.....	9
Table 9.—Cost of materials used, value of products, and cost of materials per \$100 of products, by industries: 1890 to 1905.....	9
Consumption of domestic and foreign goods.....	9
Table 10.—Value of domestic products, exports, consumption of domestic products, imports for consumption, and total consumption of textiles, with per cent of imports to total consumption: 1905 and 1900.....	10
The rank of the United States in textile manufactures.....	10
Combined textiles.....	11
Cotton.....	11
Cotton consumption in United States and Europe: 1830 to 1905.....	11
Cotton consumption, by countries: 1905 and 1900.....	11
Table 11.—World's cotton spindles, by countries: 1905-6.....	12
Wool.....	12
Estimated amount of wool retained for consumption in principal textile manufacturing countries.....	12
Silk.....	13
Table 12.—Raw silk consumption, by countries—average for the years 1902, 1903, and 1904.....	13
Conclusion.....	13
Table 13.—Combined textiles, not including flax, hemp, and jute products—comparative summary, by states and geographic divisions: 1880 to 1905.....	13
COTTON MANUFACTURES.....	19-58
Cotton goods.....	19-54
Introduction.....	19
The foreign trade in cotton goods.....	21

WOOL MANUFACTURES	85-157
Introduction.....	85
Scope of the inquiry.....	86
Table 1.—Wool manufactures—comparative summary, with per cent of increase: 1860 to 1905.....	87
Rank of states according to value of products.....	87
Table 2.—Wool manufactures—rank of ten states leading in aggregate value of products in 1905, distributed by industries: 1890 to 1905.....	87
Rank of three leading cities according to value of products: 1890 to 1905.....	88
Ownership of mills.....	88
Capital.....	89
Table 3.—Capital, with per cent of increase: 1890 to 1905.....	89
Employees and wages.....	89
Table 4.—Average number of wage-earners, and proportion of men, women, and children: 1880 to 1905.....	90
Power.....	90
Table 5.—Horsepower, number of wage-earners, and average horsepower per wage-earner, by industries: 1880 to 1905.....	90
Machinery.....	91
Machinery, by kinds: 1880 to 1905.....	91
Cards.....	91
Table 6.—Wool manufactures—number of mills classified according to sets of cards, by geographic divisions: 1890 to 1905.....	91
Table 7.—Woolen cards, by states: 1870 to 1905.....	92
Table 8.—Number and width of woolen cards, by states: 1905.....	92
Table 9.—Width of woolen carding machines: 1905 and 1900.....	93
Combing machines.....	93
Table 10.—Number of combing machines, by states: 1870 to 1905.....	93
Table 11.—Productive machinery (cards and combs) reduced to the card basis, with per cent of total: 1890 to 1905.....	94
Spindles.....	94
Table 12.—Spindles, distributed as to kind and industry: 1890 to 1905.....	94
Looms.....	94
Looms on woolen and worsted goods: 1890 to 1905.....	94
Materials used.....	95
Table 13.—Wool manufactures—materials used, by kind, quantity, and cost: 1905.....	95
Net wool supply.....	96
Table 14.—Wool produced and imported, domestic exports, and net supply of the United States: 1881 to 1904.....	96
Wool consumption.....	96
Table 15.—Comparative consumption of wool in the United States: 1840 to 1904.....	97
Scoured wool.....	97
Table 16.—Average cost of scoured wool consumed in the wool manufacture and in each industry: 1880 to 1905.....	98
Cotton in the wool industry.....	98
Shoddy.....	98
Table 17.—Scoured wool and shoddy consumed in the wool manufacture, with per cent of total: 1890 to 1905.....	98
Table 18.—Scoured wool, animal hair, shoddy, and cotton consumed in the wool manufacture, with per cent of total: 1880 to 1905.....	99
Yarns purchased.....	99
Yarns purchased: 1880 to 1905.....	99
Table 19.—Yarns purchased, distributed by kind and industries: 1905.....	99
Chemicals and dyestuffs.....	99
Chemicals and dyestuffs, etc.: 1890 to 1905.....	99
Imports of wool.....	99
Table 20.—Imports of foreign wool: 1822 to 1905.....	100
Sources of foreign wool supply.....	101
Table 21.—Imports of class 3 wool, by countries of production: 1890 to 1904.....	101
Table 22.—Imports of class 1 wool, by countries of production: 1890 to 1904.....	102
Table 23.—Imports of class 2 wool, by countries of production: 1890 to 1904.....	102
Table 24.—Foreign wool entered for consumption in the United States, by class, quantity, and value: 1867 to 1904.....	103
Products.....	103

LETTER OF TRANSMITTAL.

DEPARTMENT OF COMMERCE AND LABOR,
BUREAU OF THE CENSUS,
Washington, D. C., November 1, 1907.

SIR:

I have the honor to transmit herewith Part III of the Report on Manufactures for the census of 1905. This census was taken in conformity with the act of Congress of March 6, 1902, and the statistics cover the calendar year ending December 31, 1904.

This volume is a compilation of the bulletins for a number of the leading industries of the United States which were published as rapidly as the compilation of the data was finished. The monographs are bound together because it is the only way they can be permanently preserved and made convenient for general reference. The statistics contained in these reports are combined with those for all other industries, thus giving the totals for all branches of manufactures in the United States and in each state and territory which are published in Parts I and II of the census of 1905. The fieldwork, the compilation of the statistics, and the preparation of the text have been done by the regular force of the Office, working under the supervision of Mr. William M. Stewart, chief statistician for manufactures.

Very respectfully,

Director.

Hon. OSCAR S. STRAUS,
Secretary of Commerce and Labor.
